ARMSTRONG

Field Grown Roses

Season 1932-1933

Armstrong Roses reflect in their high quality the very careful and painstaking attention which is given them from the time the cuttings are made until the plants are shipped. It costs more to grow these high quality plants than it does to produce roses of mediocre grade, but the cost is justified in the satisfaction Armstrong Roses give our customers and the repeat orders which come in. Even though our growing costs are high, we are able to make very reasonable prices on our roses. These very reasonable prices, coupled with high quality stock, make a combination which is very hard to beat.

Most Armstrong Roses are budded on Ragged Robbin (Gloire des Rosomanes). This makes a splendid fibrous root system in our soil and grows extremely well all over the United States. Our roses may be shipped from December 1st to April 15th.

QUANTITY RATE

NOTE: Not less than a total of 50 roses at the prices quoted. Less than 50 will be sold at the 10 rate, which is 5c per plant additional. Less than 5 plants of a single variety will be sold at the retail catalog 10 rate, less a discount of 25 per cent. Our roses are tied in bunches of 10. Please order in multiples of 10.

Conditions of Sale

TERMS:

1. Cash with order.
2. C. O. D. One-third of the amount may be remitted with the order, balance to be paid on delivery at destination.
3. Charge Accounts. Our terms are strictly sixty days net from date of invoice to all who have established their credit with us. New charge accounts opened only upon the receipt of satisfactory bank or trade references, allowing time for investigation.
4. Packing at cost of material.

Lady Fairfax, HT.	(F. Cant, 1930).....	.40	.30
A sweetly fragrant new variety, with flowers of bright rosy pink shading to orange-cerise.			
Lady Forteviot, HT. (B. R. Cant, 1928)... .25 .20 Like Angele Pernet but lighter in color and a much stronger grower. Covered with flowers at all times. A splendid rose.			
Ladylove, HT.	(Beckwith, 1926).....	.30	.25
Beautifully shaped and beautifully colored flowers of amber, apricot and soft pink. The stiff stems make it a fine cutting variety.			
Lady Margaret Stewart, HT.	(A. Dickson, 1928)	.25	.20
Undoubtedly one of the best roses of the last several years. The coloring is remarkable, the long, large, pointed bud being a deep yellow splashed with orange-red, while the open flower is a beautiful shade of cadmium orange. The bush is a very strong vigorous grower with bright handsome foliage. No rose garden is complete without this splendid variety.			
Lady Mary Elizabeth, HT.	(A. Dickson, 1927)..	.25	.20
Beautiful flowers of the most brilliant pink color known in roses. Tall and long stemmed. We consider it to be one of the most outstanding new pinks.			
Li Bures, HT.	(P. Dot, 1928).....	.30	.25
A barbaric combination of red, yellow and cream in a startlingly beautiful and extraordinary rose. Much the same type as Pres. Herbert Hoover but the red shades are more predominant.

Lucie Marie, HT. (A. Dickson, 1930)30 ^L	.25
A new rose of deep coppery-yellow lightly splashed with red. Very vigorous growing to three or four feet, producing its lovely flowers on long stiff stems.		
Lulu, HT.20	.15
Not a new rose but we like it so well we cannot refrain from giving it a description. The buds are exquisitely formed, daintily flaring at the tip and are unexcelled for boutonnières. The color is a soft coral apricot. Nearly every rose planter wants at least one bush of Lulu.		
Mabel Morse, HT. Yellow20	
Magnifique, Poly. (G. de Ruyter, 1926)25 ^L	.20
A new polyantha which we like very much. The flower is quite large, semi-double, of a good clear pink. The plant is dwarf but quite vigorous.		
Maman Cochet, T. Pink20	.15
Margaret Anne Baxter, (T. Smith, 1930). Salmon bluish30 ^L	.25

Rich deep crimson, with a cerise-scarlet suffusion brightening up the flower. Double, high-centered and extremely lasting.		

—Portadown Ivory, (McGredy, 1929)..... .30[¢] .25
Creamy ivory white turning to a pure clear white as it opens. For purity, grace and beauty this fine white rose has no equal unless it is Caledonia. There will be a very heavy demand for Portadown Ivory, we feel sure.

—President Herbert Hoover, HT. (Coddington, 1930)..... .30[¢] .25
A wonderful multi-colored rose combining shades of pink, flame, scarlet and yellow. Long, beautifully formed buds opening to full, deliciously fragrant flowers, are borne profusely on the extremely vigorous bush. No rose garden is complete without this variety.

Standard (Tree) Roses

Our Tree Roses have always been noted for their heavy tops and strong straight stems, but the Tree Roses we are offering this year surpass in size and quality any we have offered for some time. They are budded on I. X. L. and Tausendschoen stocks and are headed at 40 inches. We allow our Tree Roses to grow one year longer in the field than is the usual practice but you will find the price of this stock compares favorably with that charged for Tree Roses of much smaller size and inferior quality. Prices quoted are for stock balled or bare root, as preferred.
